**Monitoring Mechanisms during Internship Programme.**

.....

Usually the internship of students is held in the month of October to February each academic year. Actual preparation for internship starts two weeks before. Our College adopts effective monitoring mechanisms during internship programme conducted in various local Schools. Initially the College organizes a meeting with School Headmasters and the entire lesson programme is discussed and communicated to the Head masters. Internship programme plans are developed in partnership co-operatively involving the school staff and mentor teachers. Taking all this into consideration College lesson committee prepares a final internship programme schedule. Student teachers with a teacher educator are divided in to groups. The College deposes a group leader among all groups (from student's side) and a supervisor for each school (from faculty side) for guidance and smooth functioning of practice teaching. Each School also deposes a Mentor Teacher for proper guidance and day-to-day functions of schools. Both the supervisors and Mentor Teachers along with Principal assess them regularly to manage their class, day-to-day activities, functions and creativity to handle their given tasks of concern school.
