INTRODUCTION:

Under B.Ed. course students have to complete various practical activities in addition to the written examination. Also, one has to go to the actual field and complete the work of study and teaching.

All students admitted to the course are not of equal ability. So after admission, on the basis of marks obtained by the students in interview and previous examination and pre-examination conducted in the college, students are identified as advanced students, Average students and Slow learner students. After that various activities are implemented according to their needs by examination cell.

OBJECTIVES:

1. To Identifying slow learners and advance learners.
2. To form a various programme for slow learners and advance learners.
3. To implement the programme prepared for slow learners and advance learners.
4. To analyze the qualitative changes in students based on the marks obtained in the final university examination.
